PURPOSE:

To establish guidelines for recognizing and processing accounts for patients that qualify for indigent care, charity care, or government assistance programs.

POLICY:

In order to provide community benefit, Jasper Memorial Hospital (JMH) offers several payment options and financial assistance programs for our patients. JMH supports the provision of medical services to medically indigent persons so that they may receive care without charge or at a reduced rate. This program applies to emergent and medically necessary care provided by the hospital.

PROCEDURE:

I. Eligibility Criteria:

- A. The hospital shall apply standard eligibility criteria for each person requesting free or reduced charge care that enables the hospital to:
 - 1. Provide free services to persons with incomes below 125 percent of the federal poverty level.
 - 2. Provide services for no charge or reduced charge based on a sliding fee scale for persons with incomes between 125 and 250 percent of the federal poverty level.
 - 3. Provide services to persons where income and family size cannot be verified, otherwise referred to as presumptive eligibility (see section below).

II. Income Qualifications:

- A. Income is the family’s gross income. Use either the average monthly income for the previous three months or for the previous year, whichever is more favorable to the applicant.
- B. For self-employed individuals, the amount of income to be counted is gross income minus work expenses directly related to producing the goods or services and without which the goods or services could not be produced. A W-2 form may be required.

- C. For money that may be considered as a non-recurring lump sum (insurance settlements, accumulated back RSDI payments, etc.), consider the gross amount received in the month received.
- D. Temporary Assistance Needy Families (TANF) or Social Security Insurance (SSI) income received by any family member should be excluded.
- E. Do not count income from any person who is not financially responsible for the patient. For example, do not count income from one sibling as available to another sibling for the purposes of paying medical bills. Likewise, do not count income from any child (minor or adult) in considering eligibility for free or reduced level of care.

III. Processing Indigent/Charity Care Accounts

- A. Apply the following guidelines when processing indigent/charity care applications:
 - 1. Have the patient complete a financial statement, whenever possible, for all self-pay and underinsured patients to determine if criteria are met. Provide assistance to the patient in completion of the form if needed.
 - 2. Financial applications must be accepted even if collection effort has been initiated.
 - 3. Outline the supporting documents needed from the applicant in order to evaluate the application. This may include bank statements, pay stubs, copies of last tax return, employer statements, award letters, or support statements from others. The hospital reserves the right to verify all submitted documentation.
 - 4. Make indigent/charity care determination prior to discharge whenever possible following the screening for other programs such as Medicaid.
 - 5. Perform a financial analysis identifying eligibility resources for Medicaid, Vocational Rehabilitative Services, State funding, disability, etc. on all self-pay and underinsured patient accounts.
 - 6. Applications are good for twelve months and can be used to include bad debt

accounts which are no older than one year from the date of service.

7. Assist the applicant in the completion of the necessary forms for Medicaid and other community and state programs.
8. Applications will be submitted to the Patient Financial Services Director for approval.
9. The approved or denied determinations must be made within five (5) business days from the date of application.
10. Issue written notice to the applicant informing them of the results of the determinations. If an applicant is determined ineligible, include the reasons and the information you relied upon to make the determination.
11. Include in the notice information on how to be reconsidered if the patient disagrees with the initial decision. Someone different from the person who made the initial determination of eligibility will be appointed to reconsider the application.
12. Include information in the notice on how to be reconsidered if the patient disagrees with the initial decision. Someone different from the person who made the initial determination of eligibility will be appointed to reconsider the application.
13. You must then issue a written final determination of eligibility. Include the information for Indigent Care Trust Fund, Division of Medical Assistance's toll-free telephone number 1-877-261-3117 or local 404-463-5827 to call if the applicant still disagrees with the determination you have made.
14. Applications are available to print from the Financial Assistance Program section at www.jaspermemorial.com.

IV. Family Unit/Size:

- A. The family unit consists of individuals living alone, with spouses, and parents and their children under age 21 living in the same household.

| Policy Name: Financial Assistance | | |

- B. A family unit may include minor children living with a legal guardian. The child, legal guardian, and the legal guardian’s family unit living in the same household may comprise a family unit.

V. Other Program Requirements:

- A. Signs must be posted in all registration areas and the business office informing the patient of the availability of financial assistance.
- B. Provide individual written notices to each patient potential eligible for free or reduced care. These written notices may also be included with letters and other billing forms. Include the information for Indigent Care Trust Fund, Division of Medical Assistance’s toll-free telephone number 1-877-261-3117 or local 404-463-5827.
- C. All notices and signs must be made available in both English and Spanish or any other language that might become necessary.
- D. Staff is to communicate the notice information for those patients who might be unable to read.

All forms and notices are included at the end of the policy and should be used according to policy. Exceptions should be rare and approved by management before using.

VI. Other Indigent/Charity Care Eligibility–Presumptive Eligibility

- A. Patients/guarantors may qualify for free or reduced care even when we are unable to obtain the completed application. The following will service as a guideline in determining presumptive eligibility:
 1. Other medical financial obligations.
 2. The amount and frequency of healthcare services.
 3. Types of services provided (e.g., elective vs. emergency).
 4. The patients are usually unemployed and have a high probability that they are unemployable; homeless; do not meet eligibility requirements of other programs;

- or have a history of inability to pay.
5. Patient/guarantor demographics and credit reports may also assist in determining presumptive eligibility.
 6. Accounts returned from Collection Agencies as uncollectible based on specific written criteria. At this time these accounts would be reclassified to Indigent.
 7. Deceased patients without an estate or third party coverage to fully cover his/her medical care costs.
 8. Patient's address (lives in a zip code known to have a per capita income below the FPG).
 9. Terminal Illness.
- B. There must be complete documentation of why the decision was made and criteria used to determine the level of financial assistance provided.
- C. In cases such as these, you would follow the same steps listed above along with your recommendation as to the disposition of a bill supported by documentation.
- D. This process always requires the approval of management.
- VII. Indigent/Charity–Catastrophic Illness/Medical Bills
- A. There may be circumstances which present where a patient's medical expenses are such that they are unable to pay them within a reasonable length of time or without extreme financial hardship. Cases such as this are classified as "catastrophic." The hospital performs an Income Test to determine if the patient may be eligible for free or reduce care using the following guidelines:
1. The Hospital will multiply the family income by 30 percent.
 2. The Hospital will determine that patient's allowable medical expenses.
 3. The Hospital will compare 30 percent of the family income to the total of the patient's allowable medical expenses.
 4. If the total of the allowable medical expenses is greater than 30 percent of the family income, then the patient meets the catastrophic charity care qualifications.
 - a. The Hospital will limit patient liability for medical expenses to 30 percent of the family's income.
 - b. Amounts that exceed this limit will be eligible for charity care.

5. Example: A family's income is \$70,000.00 per year and they have medical expenses of \$45,000.00. Thirty (30) percent of the family's annual income is \$21,000.00; the family's medical expenses of \$45,000.00 exceed this amount. The Family should then be eligible for a charity write off of \$24,000.00.

VIII. Miscellaneous processes—Monitoring of Assigned Accounts.

- A. Run reports monthly.
 1. In-house.
 2. FA.
- B. Combine accounts and set up payment plans.
- C. Respond to referrals from doctors/clinics.
- D. Refer patients to community clinics.
